

A photograph of a modern office workspace. In the center, a black leather office chair with a chrome base and casters is positioned in front of a large window. The window has horizontal blinds and is letting in bright, warm light, creating a soft glow on the carpeted floor. To the left and right of the chair are curved wooden desks with drawers. On the left desk, there is a small white object, possibly a tissue box or a stack of papers. The overall aesthetic is clean, professional, and contemporary.

jane is accommodating.

With office space at a premium, it can be a challenge to work with smaller room sizes. But thanks to jane, you no longer have to design the room around the size of the furniture. In fact, it's the other way around. This line is preconfigured to meet the size of the office. For instance, in the 10 x 12 office below, we made the furniture work within those dimensions in the smartest, most efficient way possible.

jane is an efficiency expert.

When designing smaller offices, it is important to make optimal use of space at every opportunity. Without losing any aesthetic appeal, this line cleverly incorporates convenient features that make the most of every square inch. As a result, jane is uniquely able to maximize storage and eliminate clutter.

The design flexibility of jane goes well beyond the ability to handle smaller offices. We also made certain that it can be easily expanded into a high level executive office, as well as gallery workstations for reception, administration and tables. Several components are available that can transform jane from middle management to the top level.

jane is amazing with details.

While function is a hallmark of the jane line, there is no sacrificing form. Integrating the artistry that CCN designs are known for, jane features design elements that bring sophistication to any office. With specialty veneers and finishes available, you have the design freedom to give jane a makeover to fit your approach.

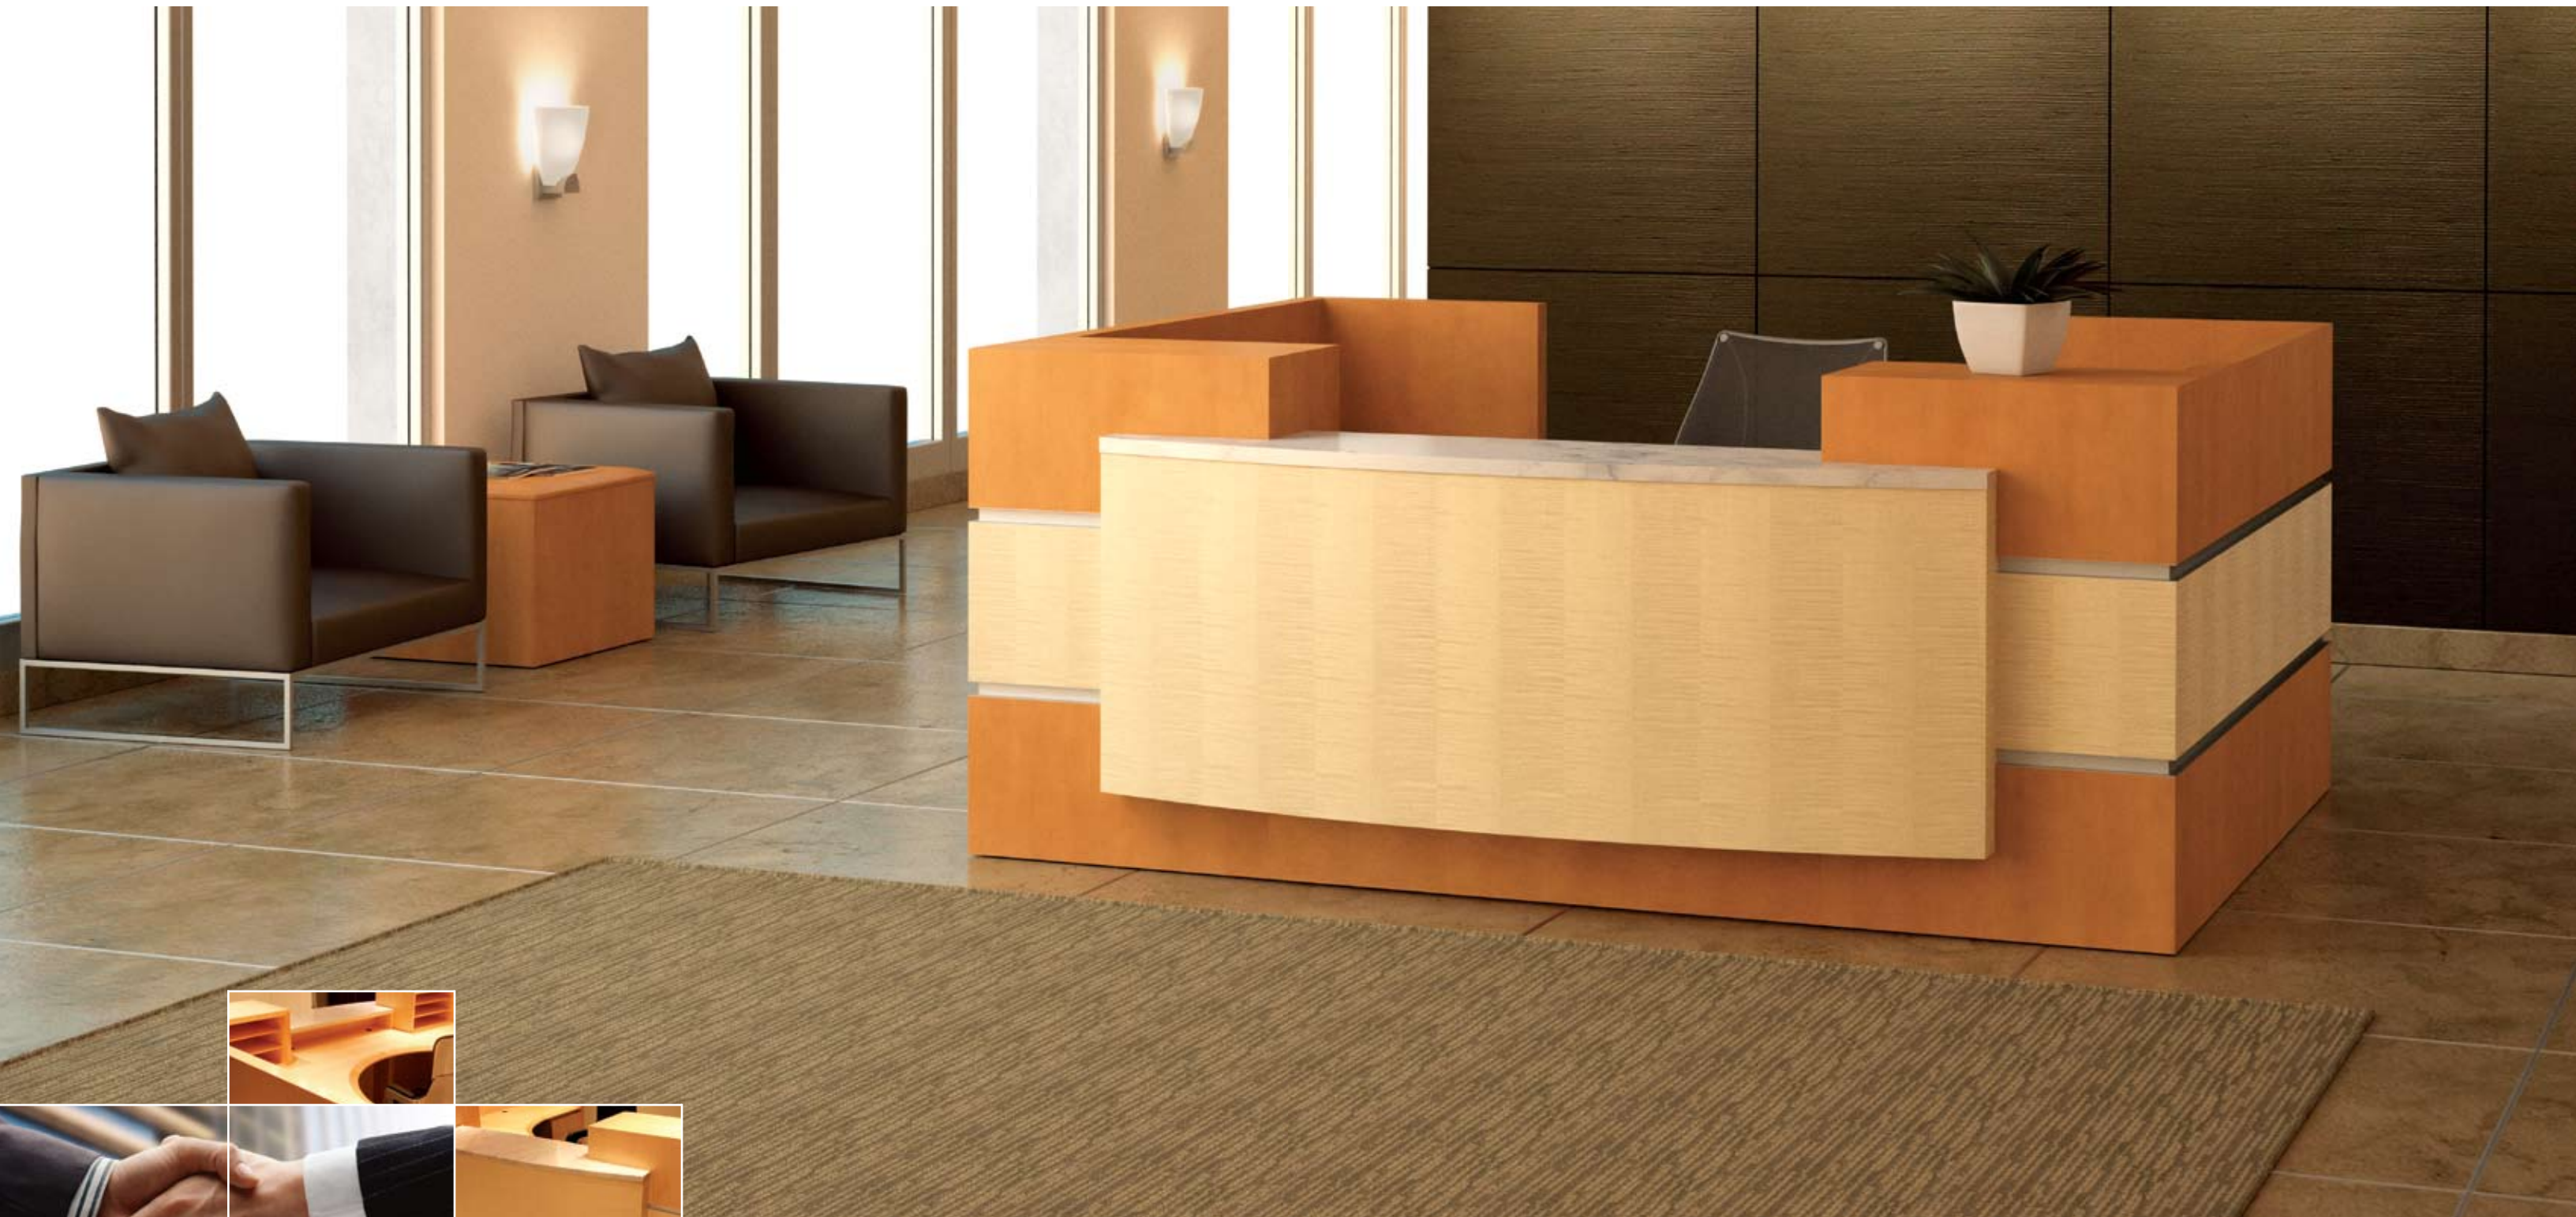

jane is technology savvy.

All those devices, components and wires make sense to jane. The areas that house voice, power and data are easily accessible yet hidden from sight. jane is designed to accommodate all the necessary technology – such as the CPU rack pictured above – while portraying a seamless appearance at all times.

jane makes a great first impression.

Designed as a functional workstation with ample storage and work surface, jane reception stations also have the personality to provide a warm welcome for your guests. The simple, clean, classic, contemporary lines of jane bring unique charm to your reception area.

jane makes people comfortable.

The very presence of jane creates a pleasant atmosphere in any office. Then there are the ergonomic advantages. Like the sit-stand feature that allows users to raise the desk to a standing position if they prefer not to sit all day. We have also designed jane with curved edges for enhanced comfort, along with an adjustable monitor arm, and a paper management system designed to keep everything within arm's reach.
